

# Carbon Literacy Course

**Saturday 7th March**

9am-4.30pm

St Michael's Church, Ormesby St Michael

Discover how faith and climate action come together.

A practical, hope-filled course exploring creation care, justice, and the steps we can take: individually and as churches, to make a real difference.

Join us as we learn, reflect, and act for God's world.

To receive certification from The Carbon Literacy Project, you will be asked to fill in a short assessment form asking you to identify one individual and one group carbon reducing action you will take. The cost to receive your certificate will be £10. You can attend the course without doing this.

Bring your own lunch, refreshments will be provided.

For more information/to book your place, contact:
